

Remarks

Support for the above-proposed claims is found in the drawings and specification of the original application. Examples (which are not cited to limit the scope of the present invention) of support with reference generally to the DESCRIPTION OF THE INVENTION include:

Claim 55 on page 7, line 1 et seq. and page 19, line 1;

Claim 56 on page 12, line 21;

Claim 57 on page 1, line 5 (SUMMARY OF THE INVENTION) et seq. and page 3, line 22 et seq;

Claim 58 on page 1, line 11 et seq;

Claim 59 on page 4, line 27 and page 6, line 10;

Claim 60 on page 4, line 18;

Claim 61 on page 4, line 30;

Claim 62 on page 15, line 29;

Claim 63 on page 18, line 28;

Claim 64 on page 11, line 7;

Claim 65 on page 10, line 28;

Claims 66 and 67 on page 17, line 5;

Claim 68 on page 7, line 26;

Claim 69 on page 8, line 22 et seq;

Claim 70 on page 3, line 15;

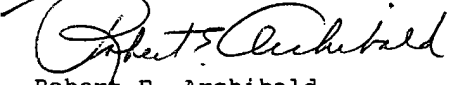

Claim 71 on page 15, line 17;

Claim 72 on page 14, line 11.

Applicant submits this preliminary amendment in order that the various novel aspects of the elected invention be claimed. The additional claims are directed to subject matter properly classed in the elected group. The amendment is provided at this time to expedite the prosecution of the present application.

Applicant respectfully requests that the amendment be entered by the Examiner.

Respectfully submitted,
Robert E. Fischell
